5.6	11/1	11/03	12/01

*Approximate circulation dates are subject to change (earlier/later) depending on a variety of factors, including printing, weather and holidays.

Supplied Ad Specifications (for those designing camera-ready ads)

Crop Marks (and other print marks)
DO NOT include crop marks, registration marks, color bars, page info, etc. NEVER include these in your ad, since they will have to be removed, which wastes time. Even if your ad has bleeds, DO NOT include these marks!!

Bleeds
If your ad has bleeds, they must go 1/4" beyond the trim edge on all four sides. The only ads that can have bleeds are full page ads and 2-page spreads. Half page ads do NOT have bleeds.

Color / Resolution
Send all files in CMYK (Cyan-Magenta-Yellow-Black) color mode. Save all files at 300 dpi (dots per inch). For large areas of black, use the CMYK values of 60-60-40-100. For black text, just use 100% K.

File Types
Acceptable file types are: JPEG, TIFF or PDF. Files must be saved with the least compression possible, to ensure the highest quality. Average file size of a full page ad is 5-10 MB. **Files should NOT exceed 20 MB.**

Single Page Dimensions

Bleed size: 11" wide x 12.625" tall
Actual page size: 10.5" wide x 12.125" tall
Safe area: 10" wide x 11.625" tall
